Tips to crack Goldman Sachs interview

- Do proper research on the company and the role you have applied for, also show your background experience and your impulse towards this job.
- Practice numerous coding problems in Hackerank and try solving them in a short period.
- Know your CV in and out and try to articulate your strengths and weaknesses.
- Demonstrate your key skills like communication, leadership, and professional/ academic achievements.
- Be a good listener and look for opportunities to prove that you make a perfect fit for the job.
- Display key characteristics like leadership, self-motivation, communication skills, and a passion for finance.
- Make it a point to build a rapport with the interviewer. Remember their names and try using them when required.
- Do not panic if you don't know the answer to a specific question. Instead, act knowledgeably by stating a relevant topic with which you are familiar.

Goldman Sachs HR questions

- Which was your preferred class at your university?

- Why Goldman Sachs?
- What are your strengths and weaknesses?
- Which of your skills and experiences make it appropriate for this job?
- What is more important? Deadlines or quality of work?
- What do you understand about Goldman Sachs's place in the industry?
- Who are Goldman Sachs' competitors?
- What motivates you in your life?
- Which role would you usually play in a team?
- Would you choose to be a captain of a losing team or a team member of a winning team?
